This appealing medical office building in Decatur, Georgia is the new home for Eye Physicians and Surgeons, P.C. The patient-friendly plan of the new building incorporates a central core area for patient registration, workup, and testing. The plan helps to organize and speed patient flow through to the examination pods, where the practice spaces for the physicians are closely related to the support spaces for nurses.

Project:

*Medical Office Building for
Ophthalmology Group Practice
20,000 s.f.
Completed August, 2006*

Eye lanes are arranged for physician convenience and patient comfort.

The main reception and checkout area is designed for staff to easily handle high patient volume in this busy practice.

Nurses stations are arranged to provide for easy cross-coverage to the exam spaces.
