

CHARLOTTE PEDIATRICS

Mint Hill, North Carolina

*Contemporary materials
enhance the traditional
architectural character of
Charlotte Pediatrics
medical offices in Mint Hill.*

Charlotte Pediatrics is a well established premier healthcare provider in the metropolitan Charlotte area. As part of Carolinas Physician Network, the practice continued its expansion with its new facility in Mint Hill, in the eastern suburbs of Charlotte.

The Hunter Group Architects had developed a model planning and development program for Carolinas Healthcare System's primary care facilities. Our program established functional, planning, and esthetic standards that could be applied to a wide range of practice needs. We were then selected to integrate the special needs of this practice with the model development program we had established.

This attractive new medical office building is a result of our team approach to produce a highly efficient and economical new facility.
